

MINI-PACK MP-1200

SAVES YOUR MONEY – ENHANCES RESOURCES USEAGE

With High Performance and Durability Hydraulic Compactor

Mini-Pack compactor is specifically developed for compaction of recycle materials and domestic waste into smaller volume for saving man power and cost on storage, transportation as well as waste disposal. Design to suit tight room restraints, the Mini-Pack is a heavy-duty hydraulic compactor that contains the high packing forces within itself to eliminate OH&S issues and bin damage.

- Stop Paying for AIR***
- Saving Pocket for Waste***
- Easy to Use and Installation***
- Free up your Limited Floor Space***
- Suitable for Demanding Application***

The Mini-Pack compactor provides a safe, sanitary, and efficient waste management system, utilizing a combination of disposal savings and labor savings for commercial and household application

- *Money Saving: Waste disposal is charged by volume, not weight. Mini-Pack compress your trash into a smaller cube. You just only pay fees for the waste, not the air!*
- *Labor Saving: Mini-Pack reduce the waste volume by as much as 20:1. You can compact up to 20 trash bags into a small cube and dramatic decrease in the number of daily trash runs.*
- *Space saving design keeps the equipment close to the source*
- *High compaction power (20:1), reduce number of bins and free up limited floor space*
- *Mini-Pack makes your facility and public areas more attractive and healthier.*
- *High-density, plastic liners reduce spills, litter and odor.*
- *Quiet and efficient hydraulic system*

Compacted Waste Plastic

Specification

Model	MP-1200
Overall Dimension	
Height (Top to Bottom)	1900mm
Width (Left to Right)	700mm
Depth (Front to Back)	700mm
Weight (kg)	450kg
Loading Door	
Height	500mm
Width	560mm
Compaction Ratio (Max)	20:1
Compacted Waste Cube	
Height	570mm
Width (Left to Right)	570mm
Depth (Front to Back)	560mm
Compaction	
Force (KGF)	400KGF
Method	Electro-hydraulic Compaction
Power	
Electrical (Standard)	230V, 1.5KW, 50/60 Hz, 1 phase
Electrical (Optional)	115V, 1.5KW, 50/60 Hz, 1 phase
